4 FIRST AID MEASURES

General: For further information refer to section 8 "Exposure-controls/personal protection".

Inhalation: Under normal conditions of intended use, this material is not expected to be an inhalation hazard.

Skin contact: Remove contaminated clothing and shoes. Immediately wipe excess material off skin with a dry cloth; then wash skin with plenty of soap and water. Seek medical attention if irritation develops or persists.

Eyecontact: In case of contact, immediately absorb excess with clean absorbent cloth or cotton. Then, hold eyelids open and flush with a steady, gentle stream of water for at least 15 minutes. Seek medical attention if irritation develops or persists or if visual changes occur.

Ingestion: Do not induce vomiting. Rinse mouth thoroughly. Get medical attention if symptoms occur.

Notes to the physician:

Hazards: No specific recommendations.

Treatment: No specific recommendations.

!5 FIRE-FIGHTING MEASURES

Extinguishing media: Dry chemical, alcohol resistant foam or carbon dioxide (CO₂).

Unsuitable extinguishing media: None known.

Unusual Fire & Explosion Hazards: Material will burn if water evaporates from emulsion, and it is heated above its flash point. Hazardous decomposition products : formaldehyde, oxides of carbon and silica.

Special fire fighting procedures: No specific recommendations.

Protective Measures: Firefighters should wear NIOSH/MSHA approved self-contained breathing apparatus and full protective clothing. Use water to keep fire exposed containers cool and disperse vapors.

& ACCIDENTAL RELEASE MEASURES

Personal precautions: Use personal protective equipment. See Section 8 of the MSDS for Personal Protective Equipment.

Environmental precautions: Do not allow to enter drains, sewers or watercourses.

Spill Cleanup Methods: Absorb with inert material. Scrape up and place in appropriate closed container see Section 7 of the MSDS.

Notification Procedures: Caution: Contaminated surfaces may be slippery. For waste disposal, see section 13 of the MSDS.

7 HANDLING AND STORAGE

Handling: Provide adequate ventilation if fumes or vapors are generated. See Section 8 of the MSDS for Personal Protective Equipment. For further information, refer to Section 10: "Stability and Reactivity".

Storage: Store in tightly closed original container in a dry, cool and well-ventilated place.
Keep from freezing.
PROTECT FROM FREEZING

a EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure limits None of the components have assigned exposure limits.

Protective Measures: Provide adequate ventilation.

Respiratory Protection: If ventilation is insufficient, suitable respiratory protection must be provided. Use a NIOSH/MSHA approved respirator if there is a risk of exposure to fumes at levels exceeding the exposure limits.

Eye protection: Wear safety glasses with side shields (or goggles).

Skin and Body Protection: Wear appropriate clothing and protective gloves to prevent any possibility of skin contact.

Hygiene measures: Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.
